

# Welcome to NowYouHearMe - *Connect Audio Anywhere*

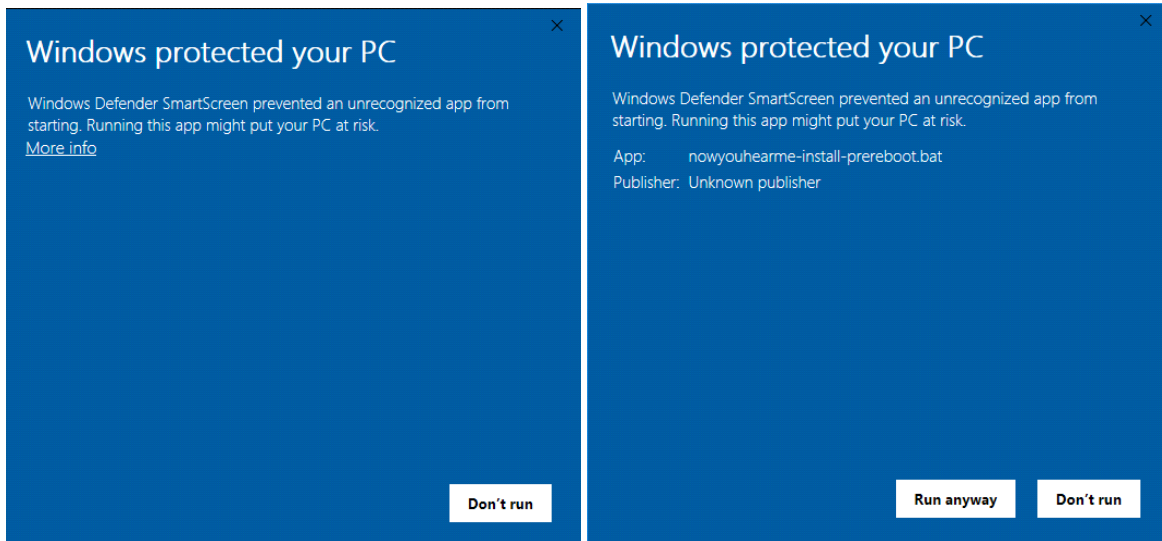

**Your computer will be the Audio Host & will have 1 Listener.**

*Unzip downloaded .zip file, then Run the installer file called nowyouhearme-setup.exe*

**Minimize ALL previous opened windows. The Smart Screen Window WILL HIDE underneath other Windows.**

After clicking the setup shortcut, you will be presented with the Windows SmartScreen pop-up to confirm that you want to run this program. Click **More info** to proceed.

Then after clicking **More info**, Smart Screen will allow you to click **Run anyway** to proceed.

**Installer will automatically reboot your computer & resume setup after rebooting.**

**This All-In-One Installer combines several time consuming installations.**

**Broadcast audio anywhere and collaborate with ease...**

What to expect? This installer will automatically:

- Install OBS (Open Broadcasting Software)
- Install OBS-NDI Plugin for Audio streaming and the NDI Runtime
- Add OBS Preferences to allow for easier OBS setup
- Install Asio4All
- Install Virtual Audio Hi-Fi Cable
- Install ZeroTierOne VPN (used to join NDI across the Internet), connect you to your own private network
- Add Asio4All preferences to allow for easier Virtual Audio routing
- Install TeamViewer for screen sharing and remote control
